

Schedule Vista (Manual)

Stop Submissions (Stop scheduling)

You will be able to stop submissions from all users from any specified time.

1. Simply define the time period you wish to prevent scheduling by inputting the start and end time. (Note; you can use the small double arrows to sequentially go through dates or click the black arrow to bring a small calendar view to choose the specific date.)

The screenshot shows a web browser window with the address bar displaying "schedulevista.hopto.org/StopSubmission.php". The page has a black header with a "Back" button and the title "Schedule Vista Submission Block". Below the header, there is a logo for "Powered by MySQL and" with a Raspberry Pi icon. The main text reads: "there are no block parameters in place you are free to block appointments". There are two input fields for dates, both labeled "mm/dd/yyyy". Below these fields is a "SUBMIT" button. At the bottom of the form area, there is a button labeled "Empty Submission Block". The footer of the page contains the text "Submission Block" on the left and "Brought to you by: Gold Team, Inc." on the right.
